

## Dr Giovanni Savoini

Birth date : 04.041958

Contact: [giovanni.savoini@unimi.it](mailto:giovanni.savoini@unimi.it),  
Department of Health, Animal Science and Food Safety,  
Università degli Studi di Milano

Qualificaton: since 1997 professor of animal nutrition

## Curriculum Vitae

Doctor in Veterinary Medicine (DVM)  
Doctoral degree (PhD) in Animal Science

His research activity is focused to study physiological and pathological aspects of ruminant and monogastric nutrition. The main topics in this field are related to the role of nutrition on dairy ruminants health and on milk quality, with particular attention to n-3 fatty acids.

He supervised 16 PhD students from Italy, Ethiopia, Bangladesh and Romania

2008-2016 Scientific director of the Animal Production Research and Teaching Centre of the Università degli Studi di Milano

2012-2015 Coordinator of the PhD course "Animal Nutrition and Food Safety"

2016-2018 President of the Qualification Committee "Animal Science and Technology" of the National Scientific Qualification of the Italian Ministry of Education (MIUR)

Since 2016 Hearing expert for the GMO sub Food and Feed of EFSA

Since 2017 President of the Nutrition Commission of EAAP (European Federation of Animal Science)

Since 2016 Associate editor of the Italian Journal of Animal Science

Member of several teams for visitations of veterinary faculties for EAEVE (European Association of Establishments for Veterinary Education) and RCVS (Royal College of Veterinary Surgeons)

SCOPUS: 82 documents, h-index 16
